## WHAT IS CLAIMED IS:

10

20

25

- 1. A substantially pure polypeptide comprising an amino acid sequence at least 60% identical to SEQ ID NO:20 or 25, wherein the polypeptide has a G protein-coupled receptor protein activity.
- 5 2. The polypeptide of claim 1, wherein the G protein-coupled receptor protein activity is binding to histamine.
  - 3. The polypeptide of claim 1, wherein the amino acid sequence is at least 70% identical to SEQ ID NO:20 or 25.

4. The polypeptide of claim 1, wherein the amino acid sequence is at least 80% identical to SEQ ID NO:20 or 25.

- 5. The polypeptide of claim 1, wherein the amino acid sequence is at least 90% identical to SEQ ID NO:20 or 25.
  - 6. A substantially pure polypeptide comprising the sequence of SEQ ID NO:20 or 25, or a fragment thereof that a) has a G-protein receptor coupled protein activity, or b) is immunogenic.
  - 7. A substantially pure polypeptide encoded by a nucleic acid that hybridizes under high stringency conditions to the sequence of SEQ ID NO:21 or 26, wherein the polypeptide has a G protein-coupled receptor protein activity.
    - 8. An isolated nucleic acid encoding the polypeptide of claim 1.
    - 9. An isolated nucleic acid encoding the polypeptide of claim 6.
- 10. An antibody that specifically binds to the polypeptide of SEQ ID NO:20 or 30 25.

11. An isolated nucleic acid comprising a strand that hybridizes under high stringency conditions to the sequence of SEQ ID NO:21 or 26, or the complement of SEQ ID NO:21 or 26. 12. The isolated nucleic acid of claim 11, wherein the nucleic acid encodes a polypeptide having a G protein-coupled receptor protein activity. 13. The nucleic acid of claim 12, wherein the G protein-coupled receptor protein activity is histamine binding. 14. The nucleic acid of claim 11, wherein the strand is at least 15 nucleotides in length. 15. A vector comprising the nucleic acid of claim 8. 16. A vector comprising the nucleic acid of claim 9. 17. A vector comprising the nucleic acid of claim 11. A vector comprising the nucleic acid of claim 12. 18. 19. A vector comprising the nucleic acid of claim 14.

5

10

15

20

25

20.

. •

A cultured host cell comprising the nucleic acid of claim 8.

- 21. A cultured host cell comprising the nucleic acid of claim 9.
- 22. A cultured host cell comprising the nucleic acid of claim 11.
- 30 23. A cultured host cell comprising the nucleic acid of claim 12.

- 24. A cultured host cell comprising the nucleic acid of claim 14.
- 25. An antibody that specifically binds to the polypeptide of claim 1.

5

26. A method of producing a polypeptide, the method comprising culturing the cultured host cell of claim 20 under conditions that permit expression of the polypeptide in the cell.

10

- 27. A method for identifying a compound that modulates a G protein-coupled receptor activity, comprising the steps of:
- a) contacting a polypeptide of claim 1, or a cell transected with a nucleic acid encoding the polypeptide of claim 1, with a test compound;
- b) determining whether the test compound modulates a G protein-coupled receptor activity of the polypeptide or cell,

thereby identifying a compound that modulates a G protein-coupled receptor activity.

28. The method of claim 27, wherein the G protein-coupled receptor activity is histamine binding.

20

15

29. The method of claim 27, wherein the G protein-coupled receptor activity is changing cellular cAMP concentration, changing cellular calcium concentration, activating a G protein, activating phospholipase C, or changing intracellular pH.

25

- 30. A kit comprising the polypeptide of claim 1 and instructions for use in a method of screening.
- SEQ ID NO:20 or 25.

31.

30

32. An isolated nucleic acid sequence comprising SEQ ID NO:21 or 26.

A substantially pure polypeptide, the sequence of which consists of

- 33. An isolated nuclei acid sequence comprising a sequence encoding the polypeptide of SEQ ID NO:20 or 25.
- 5 34. A compound isolated by the method of claim 27.
  - 35. A pharmaceutical composition comprising the compound of claim 34 as an active ingredient.
